BRANCH: Artificial intelligence and Machine learning

BATCH START DATE : 24-11-2025

BATCH END DATE :28-11-2025

PROJECT TITLE : professional resume builder

PROJECT LINK : <https://my-site-secyc4f1-tejaswanikorlam20.wix-vibe.com/>

PROJECT DESCRIPTION:

Developed a web-based application to help users create professional resumes quickly and efficiently.

The application provides multiple modern and ATS-friendly resume templates for easy selection.

Users can input personal, educational, and professional details into structured forms.

Includes dedicated sections for work experience, education, skills, projects, and certifications.

Offers a real-time preview of the resume for instant formatting feedback.

Allows users to rearrange sections and customize headings according to preferences.

Incorporates automated formatting to maintain consistency across all templates.

Provides suggestions for action verbs, keywords, and skills for better employability.

Supports exporting resumes in multiple formats including PDF and DOCX.

Ensures that all resumes are optimized for Applicant Tracking Systems (ATS).

Enables users to save, edit, and manage multiple versions of their resumes.

Integrates responsive design for seamless usage on desktops, tablets, and mobiles.

Includes input validation to prevent missing or inconsistent information.

Features a clean, intuitive, and user-friendly interface for non-technical users.

Implements secure data handling and privacy measures for sensitive user information.

Supports multilingual input to cater to international job applications.

Offers visually appealing templates suitable for various industries and career levels.

Uses drag-and-drop functionality to rearrange sections and customize layouts easily.

Built with modern technologies like React, Node.js, and Firebase for scalability.

Streamlines the resume-building process, helping users create impactful and professional resumes efficiently.

Thank you IBM
